Dear Valued Customer,

Thank you for purchasing a HardCabs by DFK cab enclosure kit! We know that you will be pleased with its performance and durability for years to come.

We have assembled the Owners Packet Materials so that you will have everything you need in order to enjoy your new cab kit as well as access to other important Warranty and Registration information.

First, we ask that you take a few minutes and complete the Limited Warranty Registration Form. This will activate the Warranty on your cab. Please mail this Form back to us as soon as possible after taking delivery of your cab kit. This form must be received by HardCabs within 30 days of purchase otherwise the warranty on the cab may not be valid. If any problems occur with the cab components or parts and if replacement is needed, it will be the sole financial responsibility of the customer. Please mail us the completed Product Registration Form...its great insurance!

Next, our Limited Warranty Certificate is also included so that you know exactly what is covered and what is not once your Warranty has been activated.

Lastly, we have included links to downloads for your Assembly Instruction Manual as well as the Parts List Catalog. If you have any technical installation questions or issues regarding your cab, please call DFK America, Inc. at (630) 324-8585.

Thank you again and enjoy your new DFK cab!

Best Regards,

Mike Kelly
Vice President
HardCabs/DFK America, Inc.
