

**INSTALLATION INSTRUCTIONS** 

# CF MOTO ZFORCE 800EX

# **SAFETY INSTRUCTIONS**

Warning: Failure to heed all safety and operating instructions and warnings regarding use of this product can result in serious bodily injury.

# READ PROPERLY COMPLETE ASSEMBLY INSTRUCTIONS BEFORE STARTING OF ASSEMBLY

Install all parts indicated in assembly instructions. Failure to fully assemble product before use could result in personal injury.

Assembly of product requires use of hand or power tools.

If you are not experienced in using these types of tools,
have product dealer do the install for you.

Some parts contain sharp edges, wear protective gloves if necessary.

Always keep your assembly area clean, uncluttered and well lit.

Keep visitors and children a safe distance away from the assembly area. Visitors should wear the same safety equipment described under.

Never operate your UTV with the cab doors open. Failure to properly latch the doors before moving the vehicle could result in serious injury.

Dress for safety. DO NOT wear loose clothing, gloves, neckties or jewelry if using power tools to assemble this product.

Insert all nut covers after you finish installation.

Never drive your UTV with the cab front window in open position.

Failure to properly latch/lock front window before driving the vehicle could result in serious injury.

Please be careful not to break the plastic washers. When tightening screws with plastic washers, use maximal power 3.7 foot-pound force (5 Nm)!!!

DFK HardCabs 2464 Wisconsin Avenue Downers Grove, IL 60515 630-324-8585

info@hardcabs.com

WARNING: For safety purposes, if the DFK Cab doors are removed, it is mandatory that the OEM manufactured Half Doors or Nets are REINSTALLED before operating the vehicle.

### **MAINTENANCE AND CLEANING**

To clean polycarbonate surface use soapy water solution or other subtle means.

Dirt and dust wash by gently water stream and swipe only with wet or damp means in the direction from top to bottom.

The recommended frequency of cleaning of polycarbonate part is about 1 time per month or according to the actual degree of pollution.

Do not use detergents that could scratch the surface plates. (abrasives, harsh fabrics, etc.)

Do not use solvents or alkaline detergents or cleaners with ammonia (ammonium hydroxide).

Do not remove the impurities from the surface of the razor blades or other sharp items.

Do not clean cabin when the polycarbonate plates are heated by the sun.

Do not use a squeegee as it could scratch surface plates.

Do not clean with pressure washer strength greater than 50 bar (WAP)

The manufacturer is not responsible for scratching the surface if failure to comply with the above instructions.

All bolted connections of cab must be checked by user at regular intervals and tightened.

Please be careful not to break the plastic washers. When tightening screws with plastic washers, use maximal power 3.7 foot-pound force (5 Nm)!!!

## **ELECTROINSTALLATION 1.**

#### **HEATER**

Need to installation (included)

DFK HardCabs 2464 Wisconsin Avenue Downers Grove, IL 60515 630-324-8585

www.hardcabs.com

DFK HardCabs 2464 Wisconsin Avenue Downers Grove, IL 60515 630-324-8585

info@hardcabs.com

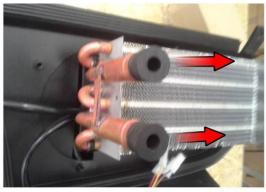

www.hardcabs.com

Remove front boot plastic cover.

TAKE OUT THE RUBBER PLUGS FROM HEATER TUBES.

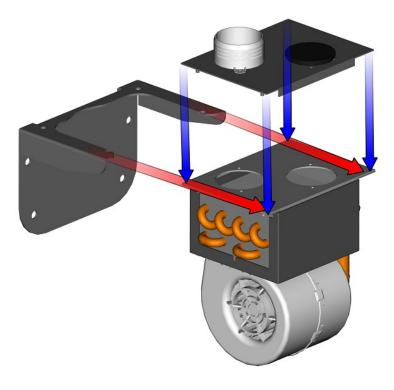

DFK HardCabs 2464 Wisconsin Avenue Downers Grove, IL 60515

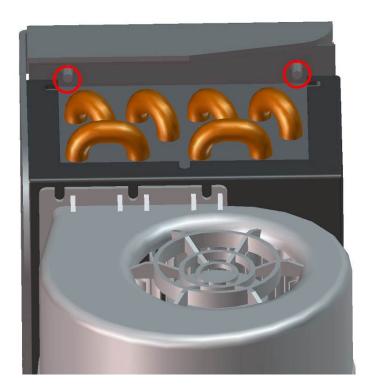

630-324-8585

www.hardcabs.com

Install the heater assembly into the heater holder.

Fix the heater assembly with the heater holder by included nuts and washers.

DFK HardCabs 2464 Wisconsin Avenue Downers Grove, IL 60515 630-324-8585

www.hardcabs.com

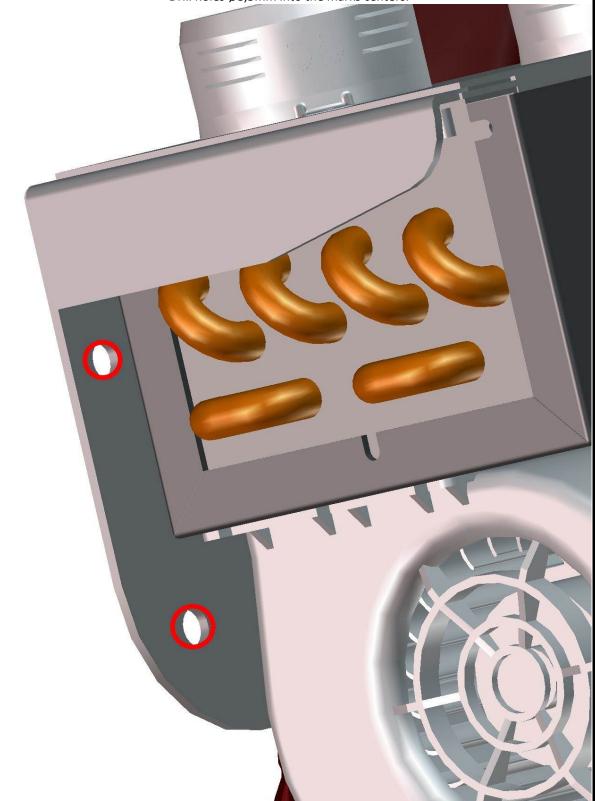

**DFK HardCabs** 2464 Wisconsin Avenue Downers Grove, IL 60515 630-324-8585

www.hardcabs.com

info@hardcabs.com

Make marks onto the front bottom plastic cover in accordace with the heater holders holes on both sides. Drill holes  $\emptyset$ 8,5mm into the marks centers.

DFK HardCabs 2464 Wisconsin Avenue Downers Grove, IL 60515 630-324-8585

www.hardcabs.com

info@hardcabs.com

From the front boot space insert the heater holder ledge pins into the holes from previous step.

DFK HardCabs 2464 Wisconsin Avenue Downers Grove, IL 60515 630-324-8585

www.hardcabs.com

Cut hole  $\emptyset$ 50mm into the dashboard bottom cover  $\emptyset$ 50mm into the best position for the air hose PVC.

Install the air hose PVC onto the heater air tube and fix by included aluminium tape.

DFK HardCabs 2464 Wisconsin Avenue Downers Grove, IL 60515 630-324-8585

www.hardcabs.com

info@hardcabs.com

Install the heater assembly onto the heater holder ledge pins and fix by included nuts and washers. Lead the heater harness under the dashboard.

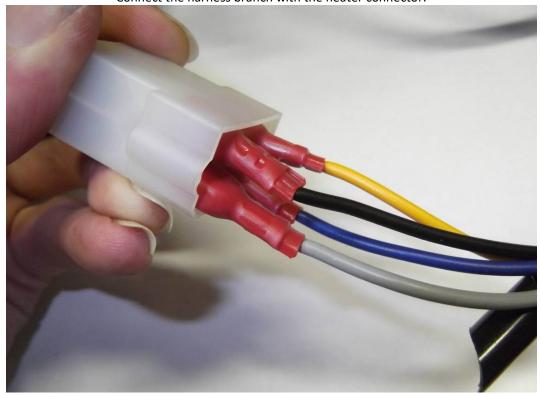

DFK HardCabs 2464 Wisconsin Avenue Downers Grove, IL 60515 630-324-8585

www.hardcabs.com

Connect the harness branch with the heater connector.

Uninstall the UTV glovebox from the dashboard (blue circle).

DFK HardCabs 2464 Wisconsin Avenue Downers Grove, IL 60515 630-324-8585

www.hardcabs.com

info@hardcabs.com

Carefully cut hole Ø50mm for the air vent into the dashboard (blue circle), hole position must be chosen in order the hole have to be hidden under the air vent cover. Lead the air hose PVC through the hole.

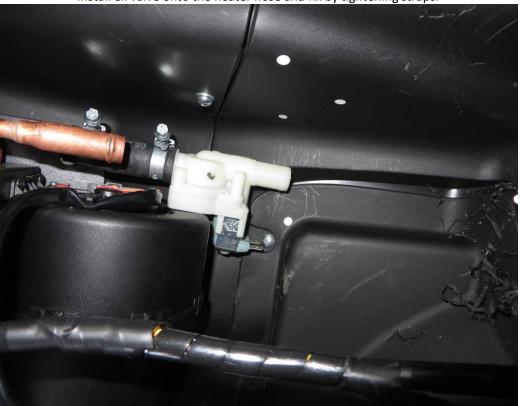

Install the air hose holder (picture below) onto the air hose PVC and fix by tightening strap.

Press the air hose holder into the dashboard hole.

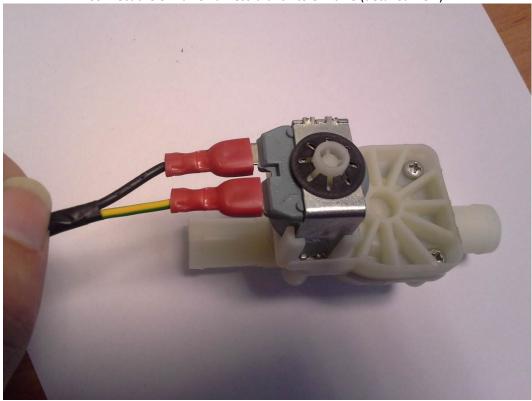

DFK HardCabs 2464 Wisconsin Avenue Downers Grove, IL 60515 630-324-8585

Install el. valve onto the heater hose and fix by tightening straps.

Connect the el. valve harness branch to el. valve (detailed view).

DFK HardCabs 2464 Wisconsin Avenue Downers Grove, IL 60515 630-324-8585

www.hardcabs.com

info@hardcabs.com

Drill 2 holes Ø25mm into the inner front wall in accordance with the heater hoses pass(red circle).

Connect the bended hoses with the heater and with the el.valve on one side and to the heater hoses pass on the other side and fix by tightening straps.

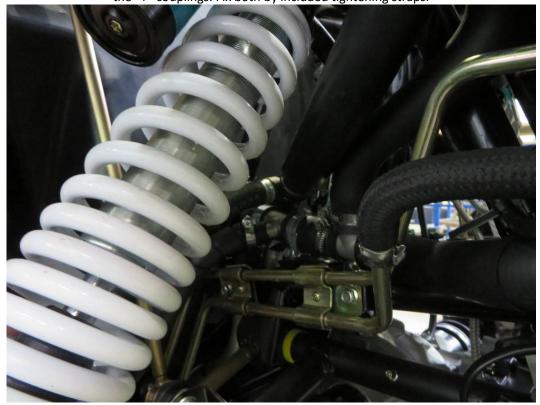

DFK HardCabs 2464 Wisconsin Avenue Downers Grove, IL 60515 630-324-8585

www.hardcabs.com

Connect the heater hoses to the heater hoses pass and fix by tightening straps.

Cut the original engine cooling system hoses and insert "Y" couplings. Install the heater hoses onto the "Y" couplings. Fix both by included tightening straps.

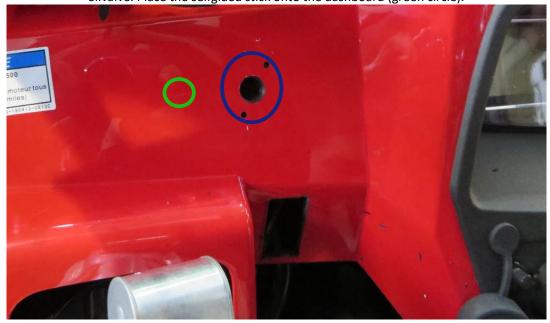

DFK HardCabs 2464 Wisconsin Avenue Downers Grove, IL 60515 630-324-8585

www.hardcabs.com

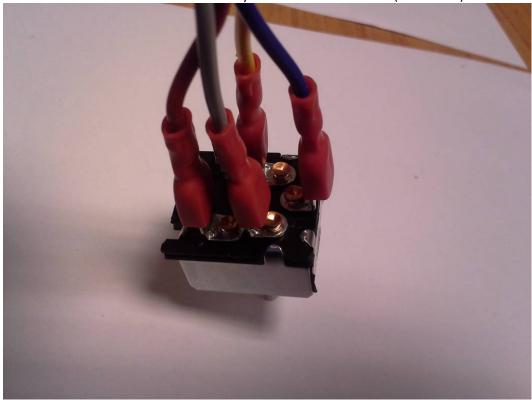

Drill 1 hole  $\emptyset$  11,5-14mm (0,45-0,55 in) and 2 holes  $\emptyset$  2,5-4 mm (0,1-0,16 in) into the dashboard in accordance with the heater switch base(blue circle). Drill the hole  $\emptyset$ 25 mm into the dashboard for the el.valve. Place the selfglued stick onto the dashboard (green circle).

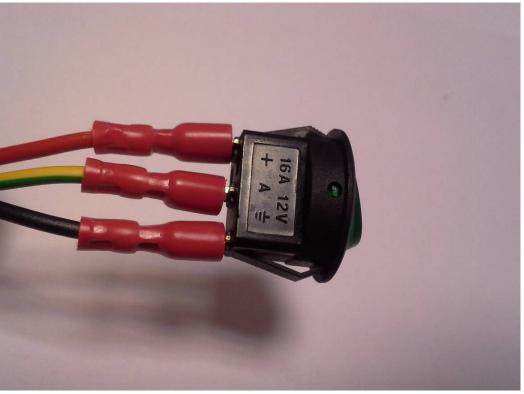

**SEE NEXT PAGES** 

Connect the heater switch body with the harness branch. (Detail view)

Connect the harness branch with the el.valve switch. (Detail view)

Press the el. valve switch into the hole.

DFK HardCabs 2464 Wisconsin Avenue Downers Grove, IL 60515 630-324-8585

www.hardcabs.com

info@hardcabs.com

Install the heater switch body from inner side into the hole. Install the switch base and switch head onto the switch body.

Connect the heater harness to the relay harness.

DFK HardCabs 2464 Wisconsin Avenue Downers Grove, IL 60515 630-324-8585

www.hardcabs.com

Connect the relay harness to the original electro installation (detailed view).

Lead the single relay harness branch to the central panel and connect it with the origingal electroinstalation.

DFK HardCabs 2464 Wisconsin Avenue Downers Grove, IL 60515 630-324-8585

www.hardcabs.com

**ZFORCE 800EX** 

It is absolutely necessary to bleed the air out of the UTV's engine cooling system. Incomplete bleeding of cooling system can result in engine damage. If you don't have sufficient experience with this process, we strongly recommend professional service technician assistance. We are not responsible for damages when cooling system bleeded incompletely. Please note that aditionall heater system will absorbed more than 2 liters of coolant fluid.

- Important: After the heater system installed check the system for leaks.
   Turn on the electric vent switch and confirm that the engine is cold.
   Start the engine and wait untill engine warmes up.
- Important: Allways check engine temperature if it overheats turn of engine.
- 2. To achieve engine operating temperature depress the accelerator to increase The engine RPM. This will increase the preasure and flow of the water pump forcing more coolant through the heater. After operating temperature ceache turn of engine and open it. Trapped air should come out from heater system throughout cooler. Repeat this procedure until heater/cooling system is completely bleeded out. Fill the cooling liquide into the cooler very carefuly.

# IF COOLER CAP IS HOT, USE GLOVES

The DFK Cab heater, like the heater in a car, generates heat from the vehicle's engine.

In nearly all cases, the heater should generate enough heat from your UTV, side by side, or tractor engine that you may need to turn the heater off periodically otherwise the air in the cabin may be too hot.

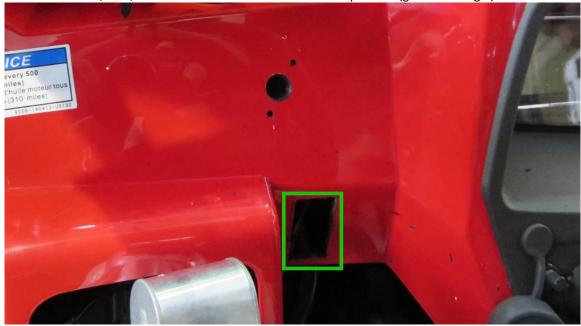

It is important to check the coolant level regularly at least 4-5 times during the first several days of operation and fill as necessary until the coolant level has stabilized. The heater will draw and retain coolant, sometimes at the expense of coolant to the engine. This can cause engine overheating if not managed properly.

#### WIPER/WASHER 1.

Drill hole  $\emptyset 8mm$  (0,33-0,38in) into the plastic boot cover wall and install wahser tank holder " $\Omega$ " by included screw, washer and nut. Drill hole  $\emptyset 16mm$  (0,66-0,7in) into the plastic cover wall. Lead the washer harness through the hole and install the washer tank onto the holder. Install plastic boot cover back.

Install the wiper/washer switch into the dashboard, if you don't have original hole, cut the rectangle 44,1x22,1mm into the dashboard into the best position (green rectangle).

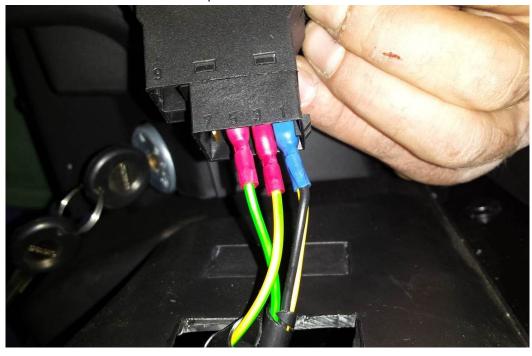

DFK HardCabs 2464 Wisconsin Avenue Downers Grove, IL 60515 630-324-8585

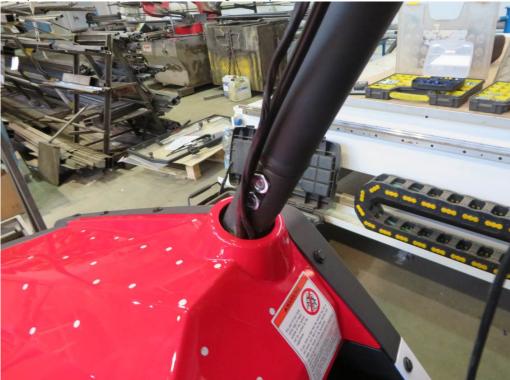

www.hardcabs.com

Run the wiper harness through the switch hole. Connect the wiper and the washer harnesses with the switch and press the switch into the dashboard.

Run the washer hose and wiper harness under the dashboard to the right side. Run the wiper harness and washer hose through the space between the dashboard and UTV rollercage.

DFK HardCabs 2464 Wisconsin Avenue Downers Grove, IL 60515 630-324-8585

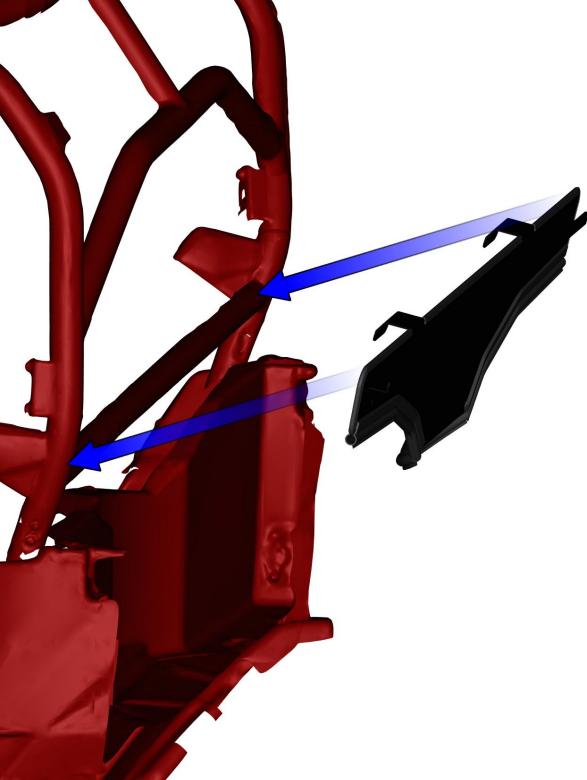

www.hardcabs.com

BEFORE FIRST USAGE FILL THE WASHER TANK WITH THE WASHER LIQUID.

Place the rear bottom panel onto the UTV rollercage and adjust into the best position.
